

ARCADE HUB

bittuhere.github.io

Official PDF.js v6.2.108 viewer

This is the DEFAULT demo document of the customized viewer.

Toolbar stripped: no highlight, text, draw, image, signature, comment, print, save or tools buttons.

Powered by Mozilla PDF.js - Apache License 2.0.

-
- **Toolbar shows ONLY: views, find, page navigation and zoom**
 - No editing buttons. No print. No save. No tools menu.
 - **Zoom with pinch or Ctrl + wheel - the page must never blink**
 - Press Ctrl+F and search for the word: NEEDLE
 - **The needle is hiding on page 7 of this document**
 - Open the views manager - thumbnails and outline work
 - **Type a page number and press Enter to jump**
 - Select text with the mouse - the text layer is live
 - **Links and bookmarks still work**

If you can read this, zoom, search and jump pages,
the customized official PDF.js v6 viewer works.
